

Point Blank

A multidisciplinary community of programmers

We are POINT BLANK

FOUNDERS

MOHIT AGARWAL

Mohit is currently an SDE2 at Gance (InMobi). Before this, he had stints at Ola and Amazon. Known for his straight, no nonsense attitude, Mohit laid the foundation for Competitive Programming culture in Point Blank. In his time as a student, Mohit founded the problem solving competitive platform called codebattle.in and qualified to the Regionals of the ACM-ICPC.

ASHUTOSH PANDEY

Ashutosh is currently a Compiler Engineer at AMD. As a student he did Google Summer of Code with Arduino, was a Linux Foundation mentee with ELISA, and won several Hackathons including the Smart India Hackathon in 2019. He built up the Open Source and Hackathon culture in Point Blank, with numerous students going on to do prestigious programmes.

SOUMYA PATTANAYAK

Widely regarded as one of DSCE's strongest competitive programmers, Soumya was previously an SDE at Amazon and had a stint in Verse Innovation before moving on to do his own thing. Soumya's skills in solving problems are only exceeded by his ability to grok new languages and build interesting projects. He's also an ACM-ICPC regionalist.

TEAM LEADS

Pratyush Singh

“ I am **Pratyush Singh**, an Android developer with a passion for software development in general. I'm a firm believer in taking things one day and one problem at a time. In the next few years, I aim to continuously learn and develop my skills, so that my future self can look back with pride on the progress I've made.”

Saalim Quadri

“ I am **Saalim Quadri**, an Android Framework Developer with curiosity in working on open-source software. I enjoy running linux on shiny rectangles.”

Yusuf Azam

“ I am **Yusuf Azam** and I've been intensively practicing competitive coding for the past three years. I've become expert on Codeforces and achieved a peak rating of 1967 on Codechef and 2168 on LeetCode. Also I achieved AIR 24 in one of my recent contest.”

Akash Singh

“ I am **Akash Singh**, a public speaker turned full stack developer turned into DevOps Engineer . As George Eliot said, " It's never too late to be what you might have been". You will often find me either in a hackathon brainstorming the next winning idea or on stage causing all sorts of problems or in the PB room having a fun conversation with fellow minded techies.”

EVENTS

PBCTF is Point Bank's premier yearly offline Capture The Flag (CTF) event. Test your skills with challenges in cryptography, steganography, web exploitation, and more.

- Enhance your cybersecurity skills.
- Engage in hands-on, practical challenges.
- Connect with a vibrant community.

<.>
POINT BLANK

- presents -

PB HUSTLE 3.1

PB HUSTLE

Point Blank's weekly coding contest designed for coding enthusiasts and newcomers alike. Currently we have over 60 iterations of PB Hustle.

- **Regular Challenges:** Participate in weekly contests to continuously improve.
- **Learning Opportunities:** Discover new programming techniques and problem-solving strategies.
- **Community Engagement:** Connect with fellow coders and grow together.

ADVAITH, an adrenaline-fueled tech extravaganza, hosted by @pointblank_dsce and @dsce_acmw, offers a myriad of opportunities, challenges, and learning experiences, ranging from coding marathon to designing challenges.

COMPETITIONS

GSOC

What is Google Summer Of Code?

Google Summer of Code (GSOC) is a global program focused on bringing more student developers into open source software development.

SMART INDIA HACKATHON

The Smart India Hackathon (SIH) is a national initiative by the government of India started in 2017. Widely regarded as the largest Hackathon in the world, it is a prestigious event.

WINNER OF SIH'23

Our incredible team: **Insert Team Name** featuring **Debayan G, Madhur Mehta, Palak Khandelwal, Keshab Kataruka, Rishab Sharma and Drishtant Ranjan Srivastava**, won SIH'23 by successfully developing an incentives-based design for onboarding legal service providers on an eMarketplace for citizens in India.

WINNER OF SIH'22

The team: **Cheatcodes Inc.** featuring - **Ritabrata Nag, Pururaj Singh Rajawat, Shubham Shreshth, Shreya Sri A N and Sooraj** has won SIH'22 (Software Edition). The team developed a real-time fake news flagging system which would automatically detect fake news related to the Indian Government on social media and flag it on a website.

CENTURITON

RIT's flagship National-level hackathon

CentuRITon is a 36 hour non-stop hackathon with event partners as Major League Hacking with over 300 finalists going head to head with each other. The winners receive a huge cash prize of Rs 1,50,000.

The team GuNFT, placed first at the finals of CentuRITon '22 - a national level hackathon - hosted by Ramaiah Institute of Technology and Devfolio.

The team of four: Ankit Kumar Singh, Abhijeet Kumar, Mahesh Chavan and Sreeniketh Madgula, built a multiplayer FPS (First Person Shooter) game and an NFT marketplace in the 36-hour hack.

The team built a web platform where users can design custom modifications to guns with different attachments and skins. These gun mods can be minted, bought and sold as nfts .
